CREATING SOLUTIONS TO DOSE YOUR PRODUCT

CHARACTERISTICS

- ✓ For making **wire-cut products with hard dough**. It can cut cookies with a **diameter of up to 8 cm**.
- ✓ Excels in the areas of speed, precision and ease of operation.
- ✓ **Interchangeable moulds strip** allow a wide variety of shapes depending on the desired product.
- ✓ Height-adjustable table by means of an outer handwheel.
- ✓ Made of AISI304 stainless steel and materials suitable for processing food products.
- ✓ For manual or semi-automatic productions or those with a higher degree of automation, as it can be attached to a conveyor belt or production line.
- ✓ The standard machine is delivered with a mould strip with moulds of your choice.
- ✓ **HMI PANEL FOR INTELLIGENT PRODUCTION MANAGEMENT:** controls all machine functions: programming, production and cleaning. Up to 50 recipes can be programmed and selected. During production, parameters such as depositing speed, volume, vacuum, production speed and conveyor speed can be modified.

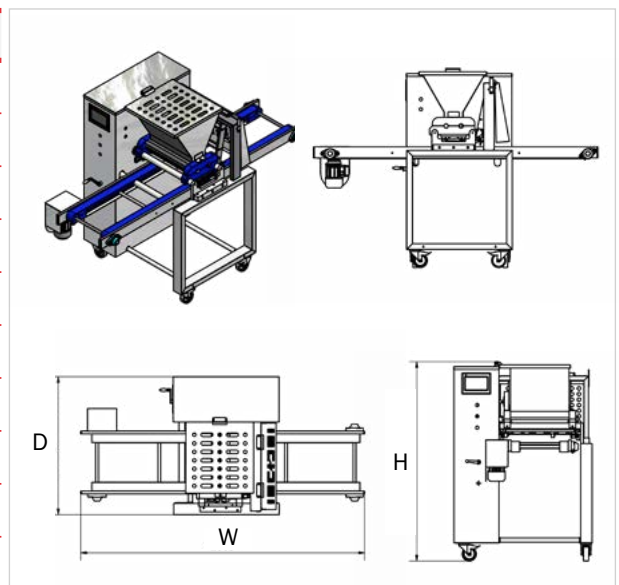

DOSING SYSTEM

Wire cutting device to produce products **with a wide variety of shapes and dimensions** with precision and quickness thanks to its **gear system**. Multiple mould holders with an infinite number of shapes.

TECHNICAL DATA

MODEL	TF 40	TF 45	TF 60	TF 80
Average production	46 (cycles/min.)			
Tray width	40 cm	45 cm	60 cm	80 cm
Tank capacity	36 L	40 L	54 L	72 L
Pieces per mould holder	3-8	3-8	5-10	5-12
Maximum workpiece diameter	8 cm			
Shape moulded strips	to choose			
Motor	3 motors of 0,55 / 0,18 / 0,18 (Kw)			
Voltage	220 V			
Measurements W x D x H (cm)	201x110x140	201x115x141	201x130x141	201x150x141
Weight	200 Kg	215 Kg	235 Kg	275 Kg
